About us

H.L.M. CENTER was founded in January 2008 in Zagreb, Croatia (a member state of the European Union).

We are the primary manufacturer of anti-theft security and fire-resistant doors which we produce in cooperation with Metal System from Greece who provides the metal frames for our doors.

We install Italian-made Securemme locks and fittings in all of our products.

We are focused on increasing our market presence in the countries of the European Union as well as other global markets.

We offer professional service and prompt delivery of custom ordered security doors within 5-7 days of the order to all locations in Croatia, Slovenia as well as other EU countries at a competitive price.

Delivery time for large wholesale orders depends on the quantity and requires 40 to 80 days for fulfillment.

We ship large orders from the port of Rijeka (Croatia).
